GLOBAL FILTRATION TECH INC.

TECHNICAL DATA SHEET / SPECIFICATION SHEET

Doc Ref: TDS-2026-X88
Date: January 15, 2026

Product Name:	Heavy Duty Spin-On Lube Filter
Model Part Number:	GFT-8940-HD
Target Application:	Commercial Cargo Trucks / Heavy Diesel Engines (Volvo, Freightliner, International)
Manufacturer:	Global Filtration Technologies Corp. (USA)

1. PHYSICAL & TECHNICAL SPECIFICATIONS

Parameter	Specification Details	Material / Standard
Filter Type	Full-Flow Spin-On Oil Filter	Steel Casing / Synthetic Media
Outer Diameter	118 mm (4.65 in)	Heavy Gauge Carbon Steel
Height Overall	248 mm (9.76 in)	Epoxy Coated Finish
Thread Size	M36 x 1.5 - 6H INT	Precision Machined Steel
Filtration Rating	25 Micron @ 99% Efficiency	Glass Fiber / Cellulose Blend
Gasket Material	Square Ring Seal	Nitrile Rubber (NBR)

2. FUNCTIONAL DESCRIPTION & PURPOSE

The GFT-8940-HD Spin-On Lube Filter is specifically designed for high-mileage international freight transport. It cleans engine oil by trapping harmful contaminants, combustion by-products, and metallic wear particles before they enter the internal engine lubrication system. Its reinforced internal core resists high-pressure surges during cold starts in mountain routes.
